

EL Grade Hydrogen Peroxide Update

- Year of mass production: 1994
- Plant: Miaoli & Dafa Plants (2 production sites for BCP)
- Package: Lorry, 200L HDPE Drum, 20L Bottle, Gallon Bottle
- Application: Wafer & Chip cleaning

EL-H₂O₂ Storage tank

EL Grade Hydrogen Peroxide (con't)

- Characteristics and advantages:
 - Raw material quality control:
 - ✓ Production of industrial grade at MiaoLi site
 - ✓ Quality check before the el grade production
 - Electronic grade:
 - ✓ Key chemical for semiconductor chips production
 - ✓ Range of products with respect to processes
 - ✓ High purity with metal impurities down to ppt level
 - Stable mass production with steady quality
 - Adequate production capacity
 - Top market share in Taiwan
